CHINESE JOURNAL OF PEDIATRICS
Volume 43, Number 6  June 16, 2005

CONTENTS IN BRIEF

Congratulation letter of the Central Committee of the CPC and State Council to the 90th anniversary of the founding of the Chinese Medical Association (CMA) and the 23rd National Congress of Member Representatives of the CMA ................................................................. 401

Special Article

Clinical studies on asthma and wheezing disorders in Chinese children ............................................................... 402
CHEN Ai-huan

Progressive kidney disease and obstructive uropathy: an overview on clinical research ......................................... 406
James C. M. CHAN, Jonathan I. SCHEINMAN, Karl S. ROTH

Study on Respiratory Disease

Role of dendritic cells in the pathogenesis of severe pneumonia in children ............................................................. 410
ZHANG Ming-zhi, WANG Li-bo, CHEN Chao, et al

Effects of budesonide on chronic airway inflammation in guinea pigs sensitized with repeated exposure to allergen ......................................................................................................................................... 414
XIANG Li, GUO De-yu, JIANG Zai-fang, et al

Effect of glucocorticoid on neurokinin A in plasma and lungs of guinea pigs with asthma and molecular mechanism of the effect ...................................................................................................................... 418
SHANG Yun-xiao, ZHANG Han, HAN Xiao-hua, et al

Lecture

Exhaled nitric oxide in asthma ................................................................................................................................. 421
MA Yu, LIU Chuan-he, Gary W. K. WONG

Review

Exercise induced asthma ................................................................................................................................................. 423
LUO Yun-chun, XIANG Qiang-wei

Respiratory syncytial virus infection and asthma in children ......................................................................................... 425
TIAN Man, ZHAO De-yu, CHEN Rong-hua

Pay close attention to human enterovirus 71 infection ................................................................................................. 428
CHEN Zong-bo

Original Article

Significance of polymorphisms in variable number of tandem repeat region of interleukin-4 gene in recurrence of childhood steroid sensitive nephrotic syndrome ................................................................................. 431
LIU Hai-mei, SHEN Qian, XU Hong, et al

Clinical significance of detecting neonatal peripheral blood mononuclear cells infected by HBV ................................. 434
HAN Xiao-bing, YUE Ya-fei, BAI Gui-qin, et al

Mechanism of inhibitory effect of intravenous immunoglobulin on neonatal umbilical cord blood lymphocytes ... 438
HAO Yi-qun, CHEN Tong-xin, ZHU Ya-zhong, et al

Chronic pain impairs spatial learning and memory ability and down-regulates Bcl-2 and BDNF mRNA expression in hippocampus of neonatal rats ...................................................................... 444
LI Yu-juan, PENG Shu-ling, WAN Chao-quan, et al
Gene diagnosis of X-linked agammaglobulinemia ................................................................. 449
WANG Xiao-chuan, WANG Ying, HIROKAZU KANEKANE, et al

CD4+ and CD8+ T cells in gastric mucosa in children infected with Helicobacter pylori .................. 453
LI Zhong-yue, CHEN Fei-bo, CHEN Jie

A meta-analysis of treatment of infantile diarrhea with bifid triple viable bacterial tablet .................. 457
ZHOU Xian-gang, ZHONG Qu, LI Rui

Brief Report

Association between the genetic polymorphism of chemokine genes and asthma in Chinese children .......... 462
LIU Chuan-he, CHEN Hong, HU Liang-ping, et al

Dynamic expression of transforming growth factor-β1 mRNA and protein and its inhibitory effect on lung development in premature rat with chronic lung disease ............................................................. 463
FU Jian-hua, XUE Xin-dong

Protective effects and mechanism of activin in neonatal rats with hypoxic ischemic brain damage .............. 465
AN Li, ZHU Wei-wei, WANG Ping, et al

Clinical Experience

Analysis on misdiagnosis of two cases with pulmonary disease ...................................................... 467
CAI Xiao-hong, JIN Yi-mei, ZHANG Hai-lin, et al

Case Report

Suffocation caused by oropharyngeal fibroma in a neonate .......................................................... 413
SUN Ji-zhen, MIN Jian-hua, XU Shu-guang

One case with sarcoidosis .................................................................................................................. 469
LIU Xiu-yun, JIANG Zai-fang, XU Zhi-fei

A case of cryptococcal meningitis successfully treated with placing Ommaya reservoir into ventricle ........ 470
JIANG Pei-fang, ZHU Tao

Clinical Case Discussion

No. 119: fever, purulent nasal discharge, pharyngeal pain and ulcer and dyspnea ................................. 472
Department of Pediatrics, Xiangya Hospital, Central South University

Opinion/Debate /Discussion

Recognition of recurrent wheezing in young children ..................................................................... 474
ZHANG Hai-lin, ZHANG Zheng-xia

Comments on “Recognition of recurrent wheezing in young children” ................................................ 476
FANG Yong-chen

Reader/Author/Editor

My opinion on re-evaluation of patients’ condition described in the section of long-term controller treatment of asthma in GINA 2002 ................................................................. 478
HAN Zhong

Conference Summary

Summary of the 6th National Conference on Gastrointestinal Diseases of Children ............................. 479
