PHOTOG-BUDDY is a project of personal development for a group of bereaved teenagers aged 13 to 19, co-organised by The HKFMS Foundation Limited and Togetherness. Through 8 weeks of learning photography techniques and joining outdoor practices, participants were emotionally guided to build a healthy personality and to reform their spiritual direction. The workshop, which is eight 3-hour sessions (2pm to 5pm on Saturdays), has been successfully completed in July and August. Voluntary tutors taught photography techniques and self-expression skill as well as tips to define self-oriented theme on photography. Therefore, the bereaved teenagers could leave the past behind, cherish the present and look forward to the future.

The exhibition aims at encouraging the public awareness on caring those adolescents, thereby assisting them to overcome the psychological barrier. Please support the bereaved teenagers' efforts not only on their photos but also braving adversity.
